ARTISTS' PIGMENTED INKS

ART SPECTRUM® PIGMENTED INKS

Art Spectrum® Pigmented Inks are fast drying, lightfast, water-resistant, non-toxic, intense colours with a smooth even flow that can be used as transparent washes, layered tints or bold fields of strong colour

Art Spectrum® Pigmented Ink range includes transparent and opaque colours.

As they are an acrylic pigmented ink, they will not fade like traditional dye based inks and will intermix cleanly.

Use with brushes, drawing and calligraphy pens and airbrushes on most clean, non greasy surfaces such as paper, board, wood and primed canvas. Ideal for multi-media artwork.

Colours available in 50ml glass bottles with a pipette and 500ml refill plastic bottle.

Ultra Black is also now available in 100ml's.

LEGEND

Lightfastness: American Society for Testing and Materials (ASTM), conforming to standard D4302-90.

ASTM I: Excellent Lightfastness

ASTM II: Very Good Lightfastness
